Maintenance and Consulting Plan	R 299.00
<b>SUPA</b> Maintenance and Consulting Plan	R 999.00

*CPI escalations apply on the anniversary of the contract. All plans are exclusive of VAT.*

*Segway is prepared to negotiate different terms.  
Please contact us for more information.*

**Any acts of negligence are not covered by the maintenance and consulting plan.**

## Maintenance and Consulting Plan

This includes:

- On-site service centre unit assessments. The assessments will be done by technicians from Segway South Africa. A standard report will be compiled and sent to management for review. The report details the condition and usage of the Segway. The assessments are limited to 1 (one) site visit per month.
- Puncture resistant wheel slime included.
- Repairs to the Segway powerbase and onboard computers will be done by Segway at Segway's cost. This is classified as a powerbase failure and will be fully supported.
- Segway will not support or repair at Segway's cost any damage caused to the Segway that relates to the external working parts of the unit, which include but are not limited to the following:
  - Leansteer frame
  - Handlebars and grips
  - Height adjustor knob
  - Tires
  - Tubes
  - Gearboxes
  - Console housing
  - Standard mats
  - Batteries
  - Fenders
  - Charging system
  - Infokey
  - Infokey dock

Any damage caused to the above is deemed as being as a result of the Customer's negligence and the Customer shall be charged for repairs. No loan unit will be provided due to the nature of this damage.

## SUPA Maintenance and Consulting Plan

This includes:

- On-site service centre unit assessments. The assessments will be done by technicians from Segway South Africa. A standard report will be compiled and sent to management for review. The report details the condition and usage of the Segway. The assessments are limited to 1 (one) site visit per month.
- Puncture resistant wheel slime included.
- Repairs to the Segway powerbase and onboard computers will be done by Segway at Segway's cost. This is classified as a powerbase failure and will be fully supported.
- Segway will not support or repair at Segway's cost any damage caused to the Segway that relates to the external working parts of the unit, which include but are not limited to the following:
  - Leansteer frame
  - Handlebars and grips
  - Height adjustor knob
  - Tires
  - Tubes
  - Gearboxes
  - Console housing
  - Standard mats
  - Batteries
  - Fenders
  - Charging system
  - Infokey
  - Infokey dock

Any damage caused to the above is deemed as being as a result of the Customer's negligence and the Customer shall be charged for repairs. No loan unit will be provided due to the nature of this damage.

- Loan unit shall only be provided if repairs cannot be done within 2 business days. The loan unit is nevertheless only provided when unit repair is due to product failure and not negligence.
- Unlimited service centre inspections at a Segway Service Centre. The service centre inspections will be done by qualified Segway technicians. Allows a 24 hour turn-around time from check-in.

# Documentation Required

## Rentals

---
